Computer Networking : Principles, Protocols and Practice ...

Another classification of computer networks is based on their physical topology. In the following figures, physical links are represented as lines while boxes show computers or other types of networking equipment. Computer networks are used to allow several hosts to exchange information between themselves. To allow any host to send messages to any other host in the network, the easiest solution is to organise them as a full-mesh, with a direct and dedicated link between each pair of hosts.

Introduction — Computer Networking : Principles, Protocols ...

Bonaventure, “Computer Networking : Principles, Protocols and Practice” (2011) ... The first is that we hope that this will allow many students to use the book to learn computer networks. The second is that I hope that other teachers will reuse, adapt and improve it. Time will tell if it is possible to build a community of contributors to ...
