## **E-livro PDF Digital Media Revisited**

New media theory turned much of its attention to the ontology of digital media as the defining characteristic that would come to supplant the historicism of a second media age. Digitalization and Convergence The historicism of a digital age is founded upon the promise of interoperability between all forms of media that rely on digital code.

## **Digital Media Revisited (A Bradford Book), Bod, Rens, Hay ...**

And now in the era of digital media, media themselves are being transformed as platforms, content, and producers multiply. Yet the implications of social theory for understanding media and of media for rethinking social theory have been neglected; never before has it been more important to understand those implications.
