The key to achieving and maintaining a healthy weight isn't about short-term dietary changes. It's about a lifestyle that includes healthy eating, regular physical activity, and balancing the calories you consume with the calories your body uses. Staying in control of your weight contributes to good health now and as you age.

Healthy Weight | CDC

The minerals are essential to your health, well being and fighting sickness. Dietary fiber is like the magic pill when it comes to keeping your colon healthy and working efficiently. Greens that are good to eat are spinach leaves, broccoli, lettuce, Brussels sprouts, fresh wheat grass and collards. 2.

Eating Habits: 10 Keys to Healthy Eating

#1: Eat Healthy Eat three balanced, regular meals per day (or multiple smaller ones) rich in fruits, vegetables, beans and whole grains. Include a lean protein source with each meal, and foods high in calcium. Eat healthy snacks when needed to satisfy hunger.

Eleven Keys to a Healthy Lifestyle - FINDINGbalance

Look for sources of lean protein (such as beans and other legumes, white-meat poultry, and low-fat or nonfat dairy) or those also rich in healthy fats (such as fish, nuts, and soy foods). Some research suggests that distributing your protein throughout the day also helps in weight loss, rather than eating the bulk of it at, say, dinnertime.
